ACOUSTICS FIRST

www.acousticsfirst.com

Acoustics First designs, manufactures, distributes, and sells acoustical panels and soundproofing materials to control sound and eliminate noise. These sound and noise control products include sound absorbers, diffusers, noise barriers, and vibration control devices from people who have been giving out sound advice for over 30 years. The principals of Acoustics First® have been in acoustics since the seventies, when they introduced industrial foam as an acoustic panel for recording studios. Back then, everything had to be built by hand since there were no off-the-shelf acoustic solutions.

SUITEMATE BY EXTRACTOR CORPORATION

www.suitemate.com

Keep the pool out of your locker room: Pool water damages your locker room one swimmer at a time. Wet, dripping swimsuits harm facilities by rusting metal

lockers, delaminating wood finishes, and ruining carpets and furniture with mold and mildew. SUITEMATE uses an exclusive high-speed spin process to pull out water and make a wet suit drip-free in seconds, without heat.

VANTAGE

www.vantagewatercare.com

The Vantage Water Care Program is a comprehensive water maintenance plan designed for commercial pool operators, utilizing chlorination or bromination as the primary sanitation method. The Program combines the effective and reliable sanitation properties of chlorine or bromine sanitizers with the remarkable clarification properties of a new compound called Poly-A Tablets. These components are added to an overall water management framework that encourages sparkling clear water. The Vantage Water Care Program gives your commercial pool the highest quality water in the most efficient, operator-friendly and cost-effective program available. It is a straightforward operation consisting of a number of components. The size and installation of these components are carefully determined according to your pool's specific needs and demands.

NIGHTLOCK
www.nightlock.com

Whether it's a 400-room school, college dorm or office complex, NIGHTLOCK provides protection in just seconds for emergency lockdown situations. Teachers and employees simply drop the locking handle into the floor plate. Most lockdown policy procedures for classrooms include "barricading the classroom door," with items such as desks or furniture. Most state Fire Officials approve devices like Nightlock Lockdown. Many fire code officials now apply a variance in codes to allow these temporary barricade devices for emergency events. The NIGHTLOCK® Lockdown uses the strength of the floor to withstand tremendous force, and works on any outward- and inward-swinging doors. The NIGHTLOCK unit is installed at floor level, and remains out of reach to anyone attempting to enter by breaking window glass on conventional classroom and office doors.

THORGUARD
www.thorguard.com

Thor Guard, the leader in lightning prediction, is committed to utilize emerging technologies in the development of systems that provide automatic notification of hazardous weather conditions. Thor Guard uses a highly sophisticated sensor and computer to measure and analyze the electrostatic field in the atmosphere. Lightning originates within this field, thus allowing Thor Guard to make calculations predicting its occurrence, even though there may be no visible evidence of lightning. Lightning detection systems require the occurrence of an actual lightning strike before a warning is given. Many times this is just too late. Many airlines, government agencies, and other industrial users are utilizing Thor Guard for this very reason.

PUREMODERN

www.puremodern.com

From fire pits to planters and receptacles, we'll help you find the perfect products with our off-the-shelf or completely customizable pieces. Our vast collection of planters are all suitable for indoor or outdoor use. We offer aluminum planters that can be customized with any color or shape, fiberglass planters made to your color specifications, as well as weathered steel and stainless steel metal planters. We also offer a commercial planter that is a brilliant mix of fused metal over fiberglass, giving the planters the real patina over time that metal provides with the durability of fiberglass. When you design with the image of your commercial space in mind, you want to accomplish two things: to provide an elegant and consistent brand statement, and to establish a comfortable yet stylish atmosphere for your customers and guests. With PureModern commercial planters and containers, you can achieve both of these goals.

MANUAL & AUTOMATIC AIR VENTING VALVES

PURGENVENT™

M7900AAV

NFPA 13 standard requires the venting of excess air from wet fire sprinkler systems to help prevent internal pipe corrosion.

The PURGENVENT™ Model 7900AAV is a automatic air venting valve. It includes an isolation valve and a purge valve with an internal 20 mesh strainer screen. The 7900AAV automatic air venting valve has the smallest footprint among similar venting valves and it can be purchased with an end cap and close nipple (Model 7930ECA) for direct installation onto the end of sprinkler system branch lines.

AGF also offers a manual air venting valve option, the Model 7910MAV, and an automatic inline version, the Model 7950ILV, for systems with unique installation requirements.
